

Getting Started Checklist

Spencer Smith

February 21, 2025

The following checklist is relevant when finishing a project in the SE capstone course.

- Clean-up repo
 - ☐ Issues are closed (with appropriate explanation and/or changes to the repo contents)
 - ☐ Folders for extras that are not used are deleted
 - ☐ Meaningful README file on GitHub landing page
- Changes are clear to TAs
 - ☐ TA can see traceability between issue and change, or issue and explanation
